

Permission to Apply Sunscreen on Your Child at School

Parents: We urge you to apply sunscreen on your child each morning before coming to school. Because of possible allergies and skin sensitivities, we are asking parents to provide a bottle of sunscreen for your own child. Please clearly print your child's name on the bottle using a Sharpie pen, put the bottle in a Ziploc bag, and it will be stored in your child's classroom cubby. We will not have a generic sunscreen available at school, nor will teachers apply another child's sunscreen on your child. Empty bottles will be sent home for replacement.

As the parent of _____, I agree that I will provide a bottle of sunscreen to be kept in my child's cubby.
